STRENGTHS

Learning

Eager to learn as much as possible about Python and software development

Time Management

I completed 2 Python courses successfully while combining full time work on my own e-com project.

I independently set tasks for myself, based on the needs and goals of the project, choose tools, estimate deadlines and meet them.

Commitment

I got out of my comfort zone and left my secure job to pursue something i am interesting in.
I committed to fully change my career and become an experienced Python developer.
