[PostgreSQL]
DevOps:
[GIT, Docker, Bash]

TRAININGS & COURSES

Hexlet:
[Python Developer]
Hexlet:
[PostgreSQL]
Udemy:
[Docker]

STRENGTHS

Learning
Eager to learn as much as possible about Python and software development

Commitment
I got out of my comfort zone and and left my secure job to pursue something i am interesting in.
I committed to fully change my career and become an experienced Python developer.

SUMMARY

Entry level Python developer with a strong background experience in marketing and business processing. Aiming to develop my skills and become a Senior Python Engineer.
My strongest skills is database management with Python.
My dream is to achieve success in IT, participate in interesting projects and develop as a person. I do everything possible for this!

EXPERIENCE

[2021 – 2022]
Self Employed • Python Software Engineer • Freelancer
This is the story of how my hobby and old dream became a reality.
I firmly decided to change my career profile and follow my dream.
I've been programming every day for about a year.

[2019 – 2021]
YOUCAN • Founder • PM
This was my own e-commerce project.
- IMPORTANT For the first time in a long time I used my skills in programming, which determined the change in the vector of my activity.
- Gained invaluable experience and improved project management skills.
- Worked a lot with freelancers, drew up technical specifications and monitored the completion of tasks.

[2012 – 2018]
Megastyle • Head of Sales Department •

While working at Megastyle, my way up from manager to head of the sales department.
- Opening of 5 retail stores.
- Interviews and hiring, training, adaptation of more than 30 employees.
- Description and implementation of business processes.
- Implementation of customer service automation - CRM Bitrix24
- Opening of a branch in the capital of Ukraine - Kyiv.

STRENGTHS

Time Management
I completed 2 Python courses successfully while combining full time work on my own e-com project.

I independently set tasks for myself, based on the needs and goals of the project, choose tools, estimate deadlines and meet them.
